

Besufkad Tekalign

MECHANICAL & INDUSTRIAL ENGINEER & SOFTWARE DEVELOPER

Email: besufkadtekalign@gmail.com

Phone: +251 960970370

Address: Addis Ababa University, 6 Kilo, Addis Ababa, Ethiopia

Gender: Male

EDUCATION

Sep 2024 – Jul 2029

Mechanical Engineering

Addis Ababa University, School of Industrial and Mechanical Engineering

- Developing thorough competencies across mechanical engineering core subjects, including thermodynamics, kinematics, dynamics, structural analysis, and material sciences.
- Actively integrating engineering problem-solving with custom software solutions, utilizing Python for advanced calculations, simulations, and algorithm analysis.

INTERNSHIPS & PROFESSIONAL EXPERIENCE

Oct 2025 – Present

Cybersecurity Trainee

INSA (Information Network Security Administration), Addis Ababa

- Participating in the high-intensity Cybersecurity summer talent cohort.
- Contributing to structural project deployments, system automation tasks, and secure programming initiatives.

May 2026 – Present

Technical Lead & Machine Maintenance Specialist

Simien Mountains Plastic Recycling Initiative (Joint Collaboration with Arizona State University)

- Coordinating operational logistics and providing regular mechanical diagnostic troubleshooting for industrial plastic recycling machinery, including injection molding systems and technical shredder setups.
- Collaborating directly with international engineering groups from Arizona State University (ASU) to design, build, and deploy custom products supporting local Gelada monkey habitat conservation.

SKILLS

Python Programming

Advanced (Algorithmic problem-solving, custom utility scripts, data manipulation)

Mechanical System Design & CAD	Excellent (Thermodynamics, mechanical structural analysis, solid component modeling)
Problem Solving & Optimization	Very Good (Algorithmic efficiency, logistics planning, mechanical troubleshooting)
Application & Android Basics	Good (Foundational application layouts, structural logic workflows)

CERTIFICATES

May 2026	Global Chapters Certificate Portfolio (Programming, Data, & Android) <i>Udacity (Part of Accenture) & Ministry of Labor and Skills</i> • Programming Fundamentals: Developed fundamental programming structures, software syntax logic, and core computation basics. • Data Fundamentals: Covered core data literacy metrics, sorting patterns, and analytic data structures. • Android Fundamentals: Gained exposure to native software application frameworks and logic workflows.
Sep 2024	Certificate of Completion — AI Summer Camp 2024 <i>Ethiopian Artificial Intelligence Institute</i> • Successfully finalized complete training curriculum metrics targeting machine automation fundamentals and modern intelligent frameworks.
Aug 2024	Certificate of Appreciation — Second Agricultural Census Preparation <i>Ethiopian Statistical Service</i> • Awarded in recognition of outstanding technical contributions and strong dedication towards national baseline survey data structures.
